

New Zealand WORKSHOP

Monday 25th March
DAY 1

Treatment workshop for Cryomed Key Devices

This informative workshop will cover the use of lasers and IPL for the effective treatment of skin rejuvenation, pigmentation, tattoo removal and melasma. View live treatment demonstrations including an insight into how to best prepare skin ahead of laser treatments using FILLMED cosmeceutical skincare for optimal outcomes.

We will also demonstrate treatments using multiple modalities including using lasers and RegenLab PRP for rejuvenation and for stimulating hair growth.

We will be demonstrating the Universkin cosmeceutical products – a doctors and nurses only range that is formulated in your clinic.

 Monday 25th - March

 10:00am - 4:00pm

 Cryomed Aesthetics Auckland Showroom, 10 Cawley Street, Ellerslie.

ZYE

ZYE is the world's first SmartLASER platform, and integrates various lasers to treat all skin tones.

LaseMD Ultra

Dramatically different from conventional resurfacing lasers, ULTRA™ rebuilds glowing, healthy skin through non-ablative, fractionated treatments.

Healite II

A dynamic, high-performance LED (Light Emitting Diode) and LLLT (Low-Level Light Therapy) system meticulously designed to enhance aesthetic treatment results.

CuRAS

As an advanced Q-Switched Nd:YAG laser system, CuRAS provides optimal performance for the treatment of tattoos, melasma, non-ablative resurfacing and pigmented lesions.

*Lunch and refreshments will be provided.
Please confirm your attendance prior to March 18th, 2024*

New Zealand WORKSHOP

Tuesday 26th March
DAY 2

Cryomed Workshop

This informative workshop will include live demonstrations of the ART FILLER® range of products and signature protocols with Deborah Bloxham, Senior Medical Advisor.

Discover more about:

- NCTF® BOOST 135 HA using Nanosoft
- RegenLab PRP
- Universkin

In conjunction with this workshop, we will be demonstrating treatments for women's health and body rehabilitation using the Tesla FMS systems.

 Tuesday 26th - March

 10:00am - 4:00pm

 Cryomed Aesthetics Auckland Showroom, 10 Cawley Street, Ellerslie.

ART FILLER®

ART FILLER® is an exclusive collection of hyaluronic acid-based fillers with lidocaine, designed to smooth out superficial-to-deep wrinkles

RegenLab PRP

Platelet-Rich Plasma, an isolate of the patient's own blood, has proven to have a range of therapeutic skincare benefits, both alone, and to optimise the clinical outcomes of other treatments such as laser, RF micro needling or fat grafting.

Secret RF

SECRET RF micro-needle fractional system is a leading technology for skin lifting, scarring, tightening and rejuvenation

Universkin

Compound Reborn. Skincare reinvented. A new generation of skincare formulas that are personalized, freshly compounded, minimalist, and dispensed through doctor's offices only.
